For the various items of the foregoing expenditures see report of Selectmen.

Gentlemen:

Town reports made from year to year must of necessity be very similar. During the past year, the usual little things, slight dissatisfactions, etc., have sometimes come up, but on the whole the school work has gone on pleasantly and successfully. There have been two or three instances in our Rural schools where we might wish for better results, but we have labored under the disadvantage of having to pay small wages, and in those instances had to employ young and inexperienced teachers. In many cases teachers get better pay in other towns near us than we are able to pay our teachers in the Rural schools, so we frequently lose a good teacher.

We ought to raise more money for the town schools, so we can have more schools and also pay better wages. We are going to be up against the question of wages any way, for besides the competition from other towns, our scholars are staying in better and in several of our rural schools there will be scholars coming into the High school studies this year and we shall have to employ teachers who can teach them. I say this without any reference or criticism to the teachers we have had, many of them reside in town and have done excellent work, but have taught for small pay rather than go away from home. In our Village schools we have been especially fortunate, all of the teachers

having had much experience, and three of them having been with us for years. It has been our aim, in so far as practicable, to retain the same teachers in their respective schools throughout the town. A teacher who knows the special work of any school can get quicker results than a new one.

Now in matter of the High School work, you will see from the statement herewith that the number doing High school work has increased from last year, and has been steadily gaining since we reorganized a few years ago.

This year it became necessary to have our courses of study approved by the State Superintendent as being of standard grade as required by law, and we got that settled during the summer of 1905; and at the present time we give three courses covering four years work each, viz: English, Classical and College Preparatory Courses. Our outline is similar to that of the courses in the Maine Central Institute or Coburn Classical Institute, but we so far have not been able to fill it in as well, as we are able to have but one teacher to teach all the studies of the courses.

We are coming to the point where we shall have to arrange for some assistance more than we have had, for to do good work a teacher needs more time for each recitation. As you will see by the report, our tuition item from outside scholars is beginning to amount to something, and in order to hold our place with other schools we must plan to give better service. We have a class of seven to graduate this year, with the prospect of as large or larger class next year which together with the attendance shows a thrifty condition.

Realizing the hearty support given by our people during the past few years while in a less prosperous condition, we feel that you will not let it fall off at this time. They are your schools and we know you are interested in them.

Very respectfully,

W. R. JORDAN, Supt.

Your Superintending School Committee make the following report in matter of repairs, viz: There have been some needed repairs made on the furnaces, cold air drafts put in etc. in the Village buildings, and the coming year new steps will be needed at each school house.

The school buildings in the Badger District have been painted and fixed inside and out so they are in good condition, but a little

work getting dirt away from the back side of the house ought to be done so to save rotting the clapboards and sills.

The school house in the Russell District has been painted inside, had new seats put in etc. and the wood shed has been fixed some, but the buildings need to be painted outside this Spring.

The chimney in the school house in the Holway District needs to be built over, and some other slight repairs made.

The school buildings in the Brown, Clark and Gilman District, each need some little repairing.

In the matter of appropriations we make the following recommendations:

That we raise \$1200.00 for the support of town schools.

That we raise \$500.00 for free High school.

That we raise \$250.00 for supplies and repairs.

That we raise \$200.00 for the purchase of text books.

Respectfully submitted,

A. C. DINSMORE,
CARROLL CLARK,
I. C. PIERCE.

Superintending School Committee.

Dated at Bingham, Me., February 23rd, 1906.

Warrant for Town Meeting.
